

The Strongest Door Hinges In The Industry!

Finally, A Hinge That Can Hold Its Weight!

Transglobal's Heavy Duty Hinges Feature...

- Innovative, patent pending design is **6X stronger** than conventional hinges.
- Interchangeable with conventional 'W-Style' hinges on 3/4" plywood, 1/2" composite & refrigerated roll-up doors
- Hinges are e-coated to a minimum of 1,000 hour salt spray for corrosion resistance
- Eliminates 'stressed or fractured' hinges on rear load impact
- Specially designed for Transglobal's Extreme Duty composite plate roll-up doors
- Maximizes strength & durability of composite plate panels

A Revolutionary Hinge Design From Transglobal... The Leader In Innovation!
