

Zone Defense[®] Bracket Mount Camera

CAM.313BT

If you need a quick mounting camera that will easily attach to most existing rails or external brackets, this is the camera for you. Our customers generally purchase this camera specifically to mount on the exterior side mirror bracket. When paired with the Zone Defense Rear View vision system, it provides your driver with view of the side and rear camera.

Easily attaches to brackets for quick installation

Exceeds FMVSS 111 field of view requirements

Easily add on new components as needed

Key Features:

120° viewing angle exceeds FMVSS 111 field of view requirements when used for rear view vision

Infra-red provides driver with night vision at a distance of 10M / 32'

Operates on 12v DC up to 24v DC

Built-in speaker allows driver to hear as well as see what is happening in the blind spot

IP69K rating and 7G rating to withstand power washing and harsh vibration

Integrates with Zone Defense and other 3rd Party Monitors and Recording devices (with OEM adapter cable sold separately)

Standard 1 year warranty (5 year available)

Safety is an investment and you need a system that is flexible enough to meet your needs and budget today, while easily growing into the future as your needs and resources change. That is why Zone Defense manufactures our cabled solutions using a modular approach so you can easily add on to your safety system as your program expands.
