

Zone Defense® Mini Dome Camera

CAM.300.DUO

The Zone Defense Dual Camera was made for use with mobile digital video recording (MDVR) devices. This small dual camera set-up was designed to mount to the windshield without taking up a lot of space. One camera points forward, while the other points into the cab. The Dual Camera integrates with the entire Zone Defense vision and recording systems allowing you to quickly add to existing camera, monitors, or MDVRs.

Plug and play
driver camera for
MDVR system

Forward facing
camera not affected
by ambient lighting

Supports audio
recording

Key Features:

Easily connect to MDVR devices

Forward facing camera provides a full 120 degree viewing angle to ensure you can capture the most important activities outside the vehicle

Forward facing camera includes lenses that won't reflect the light off the windshield to ensure a clear, sharp image

In-cab camera provides a 92 degree viewing camera ensuring you can view the entire cab during operation

Built-in microphone to record audio

One year standard warranty (5 year available)

Safety is an investment and you need a system that is flexible enough to meet your needs and budget today, while easily growing into the future as your needs and resources change. That is why Zone Defense manufactures our cabled solutions using a modular approach so you can easily add on to your safety system as your program expands.
