

## Zone Defense<sup>®</sup> License Plate Camera

CAM.313LPV2

The easy mount license plate camera is ideal for trucks with limited real estate on the back of their vehicle. The camera provides a wide 150° viewing angle.

Improve your driver view to avoid accidents

Exceeds FMVSS 111 field of view requirements

Easy to mount. Uses existing license plate mounting screws

### Key Features:

Wide 150° viewing angle exceeds FMVSS 111 field of view requirements

Metal housing surrounds camera for extra durability

Camera uses existing license plate mounting screw

Infra-red provides driver with night vision at a distance of 10M / 32'

Built-in speaker allows driver to hear as well as see what is happening in the blind spot

Operates on 12v DC up to 24v DC

IP69K rating and 7G rating to withstand power washing and harsh vibration

Integrates with Zone Defense and other 3rd Party Monitors and Recording devices (with OEM adapter cable sold separately)

Standard 1 year warranty (5 year available)

All Zone Defense cabled monitors and cameras are interchangeable, allowing you to easily add-on Dashboard cameras, MDVRs, reversing sensors and other vision solutions today or in the future.

Safety is an investment and you need a system that is flexible enough to meet your needs and budget today, while easily growing into the future as your needs and resources change. That is why Zone Defense manufactures our cabled solutions using a modular approach so you can easily add on to your safety system as your program expands.
