

Zone Defense® Standard Camera

The Zone Defense Standard Camera is a great addition to enhance the viewing around your vehicle. Whether you want to replace an existing camera to improve your viewing experience; add a camera to an existing monitor to cover more blind zones; or need to add a camera to view what is happening in your cargo hold, this commercial grade camera is just what you need.

Reduce blind spot accidents and improve vehicle up-time

Exceeds FMVSS 111 field of view requirements

Easily add on new components as needed

Key Features:

120° viewing angle meets FMVSS 111 field of view requirements

Built-in speaker so you can hear what is happening around the camera

Operates on 12v DC up to 24v DC

Infra-red provides driver with night vision

IP69K rating and 7G rating to withstand power washing and harsh vibration

Ability to integrate with Zone Defense and other 3rd Party Monitors (with OEM adapter cable sold separately)

Also in black (CAM.313C) or Chrome (CAM.313C.CRO)

Standard 1 year warranty (5 year available)

All Zone Defense cabled monitors and cameras are interchangeable, allowing you to easily add-on Dashboard cameras, MDVRs, reversing sensors and other vision solutions today or in the future.

Safety is an investment and you need a system that is flexible enough to meet your needs and budget today, while easily growing into the future as your needs and resources change. That is why Zone Defense manufactures our cabled solutions using a modular approach so you can easily add on to your safety system as your program expands.
