

## Zone Defense® Thermal Imager

CAM.FLIR

Zone Defense has partnered with FLIR to provide the most reliable and affordable thermal imager available today. This nighttime vision camera is ideal for a variety of transportation and other driver vision enhancement applications including mining, fire rescue, heavy equipment, and more.

Enhance driver view  
in even the darkest  
conditions

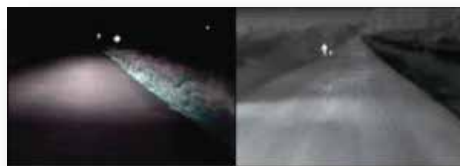

### Key Features:

Easily incorporated with Zone Defense cameras, monitors, and mobile digital video recording systems (MDVR).

Thermal imaging allows your driver to see what is happening around them with minimal light.

Thermal images are shown at further distances, giving drivers more time to react to objects crossing their path.

Monitor and camera sold separately

Seamless integration  
with Zone Defense  
systems

Safety is an investment and you need a system that is flexible enough to meet your needs and budget today, while easily growing into the future as your needs and resources change. That is why Zone Defense manufactures our cabled solutions using a modular approach so you can easily add on to your safety system as your program expands.
